George Mills Todd is general chairman of the American Numismatic Association's 1961 convention, to be held August 16-19 in Atlanta, Ga. Todd, engineering staff operations manager for Southern Bell Telephone and Telegraph Co., has been a coin collector since 1934. He is the immediate past president of the Atlanta Coin Club — and has held that office four times. He was also a second vice president of the A.N.A. Roy T. Payne is 1961 president of the host Atlanta club; Miss Margaret McAuley is publicity director for the convention.

Directory Halted Due To Robberies

In order to avoid giving coin burglars any extra help, members of the Oak Park, Ill., Coin Club have decided against issuing a club directory this year. It was felt that printing names and addresses was almost a direct invitation to such activities, according to a report from the club. The Oak Park club held its 120th meeting in February, with 110 members and guests in attendance. President Jim Grebinger presided.

Among the exhibits on display were an 1856 Flying Eagle cent and an 1877 Indian cent in proof. A 52-lot auction was conducted by auctioneers Harold Klein and Jim Thompson.

Preliminary arrangements were discussed for holding an all-day Coin Show next fall, tentatively set for November 5. Irving Harris was named chairman.

Gas Station Doubles As Coin Shop

One of the newer coin shops was recently opened in unusual surroundings, when Gil Zeller of St. Petersburg, Fla., started a store in his gas service station. Zeller's business card reads: "Skyway Amoco Service; Mechanic on duty; Coins bought and sold; Books and coin supplies".

The "store" is located at 6500 34th Street in St. Petersburg.

So far as is known, this is the only case in the United States of a coin store in a filling station, although the Bay Service Station at DeBeque, Colo., carries Whitman folders.

Two Illinois Men Spark Latest Bill

A bill to prohibit the alteration of dates and mint marks on United States coins has been introduced in Congress and referred to the Committee of the Judiciary.

The bill, designed to stop the abuses of altered date coins which have had a detrimental effect on the coin collecting hobby is the product of cooperation between West Frankfort, Ill., Congressman Kenneth J. Gray (D-25th District), and Harrisburg, Ill., numismatist Roy C. Small.

If passed, the measure will prohibit the manufacture and offering for sale of fake 1931-S and 1914-D cents, 1913 Liberty Head nickels, altered "three-legged" Buffalo nickels, copper plated 1943 cents and many other fakes which have been offered to collectors both innocently and with intent to defraud.

Text of the bill (Number H.R. 3659) is as follows:

A bill to prohibit the alteration of United States coins for fraudulent purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled. That section 331 of title 18 of the United States Code is amended by adding immediately after "within the United States" the following: "regardless of whether such alteration is for the purpose of affecting the apparent face value, the apparent numismatic value, or the metallic content, of any such coin".

Treasury Department officials are considering the bill at the present time in conformance with the policy of consulting the governmental agency directly concerned with proposed legislation, according to Congressman Emanuel Celler, chairman of the Judiciary Committee.

"I have no idea when the Treasury Department will report its findings," Representative Gray told Coin World from his Washington office.

The congressman said he believed the bill would have a good chance for passage.

"People should not want to deface coins," he said.

He said coin collectors can aid in the passage of the legislation if it emerges from the committee (if it gets the Treasury Department go-ahead.) When the bill is actively under consideration, collectors can write to their congressman and urge its passage.

The bill is unlike any in the past, according to Congressman Gray. He caused a record search in preparation for its writing by the legislative reference section. It is patterned after the coin defacing bill. He said the Secret Service department would enforce it, should the bill be passed. "Concerted action on the part of every collector is necessary for passage of this bill at the proper time," Small urged.

"All Coin World readers will be enlisted to write their Congressman and Senators asking them to vote for the bill if it is called on the floor of the House and Senate. Only through such action can the abuse of altered date coins cease to exert its harmful effect on the hobby," Collector Small recommended.

Big Three To Highlight May Penn.-Ohio Conclave

Three of the rarest coins in America's numismatic history will be "under one roof" to make the 22nd annual Penn-Ohio Coin Clubs' convention, May 12-14 at the Webster Hall Hotel, Pittsburgh, one of the affairs of the year.

Hosted by the Pittsburgh Numismatic Society, the show will feature the 1822 five dollar gold piece, last auctioned in the B. Max Mehl show in 1940, one of

the rarest gold pieces in the U.S. series, the 1804 silver dollar, "King of the U. S. silver rarities," and the ever famous 1913 Liberty nickel, "King of the decimal series."

"The Pittsburgh Numismatic Society, formed in 1950, was co-host for the fall, 1958, Penn-Ohio show," Ray Byrne, chairman-spokesman for the group said, "and this show was so successful the prompt return to the western Pennsylvania area was indicated."

The famous Carnegie Museum of Pittsburgh will contribute to the exhibit section of this convention with an outstanding selection from their cabinet as well as another "first" with the showing of the types of coins, tokens, paper money, etc. used in the prisons and penitentiaries of the United States.

World Numismatiques, of Dayton, will conduct a three-session

Coins Change; Prices Climb

Pakistan's recent change to decimal coinage has not been without its effects on the people.

In fixing revised rates in the new currency, the government has rounded off fractions in its own favor, consequently a slight rise has been made in railway fares, postage stamps, telegraph and telephone rates and bus fares.

Newspapers, too have taken advantage of the change and raised their prices.

Only the 10, five and one paisa coins have been introduced so far, with the 50 and 25 yet to come. The old coins of eight, four, two, one, and half-anna and one-pice values which have been replaced will continue to be legal tender, and will be withdrawn gradually over the next four years.

Finn Gold Expert

One of the more outstanding collections of gold coins of the world belongs to Finnish statesman J. K. Elminen, Economy Councillor of Kotka, Finland.

His set of more than 600 gold coins is considered by far the best in his country. It was exhibited recently in the Savings Bank of Tyrvaa, Finland.

Klenman Makes Bank Note Study

An exhaustive study of Canadian bank notes, issue of 1954, has been made and published by Allan Klenman of Victoria, B.C.

He has listed and numbered more than 50 notes of seven different series in eight denominations each, which are known, and some 30 more which have not been seen in circulation.

Varieties are listed by design, by signatures, by whether star or no star, and by engravings of which there are two but well mixed in combination with the other factors.

The outline is a four-page self-cover pamphlet of stiff paper stock and attractively printed. Klenman's address is 3250 Beach Drive, Victoria, British Columbia, Canada.

Ancient Coins Study Subject

The American School of Classical Studies at Athens, Greece, is studying coins and pottery found recently by its members at Corone south of the Gulf of Porte Rafti, twelve miles from Athens.

Prof Eugene Vanderpool is in charge of the excavations at the site, which is believed to have been a camp occupied by the troops of Ptolemy II Philadelphus, King of Egypt, during a war about 260 B. C. The coins are described as from the time of his reign.

Today's Chuckle

A London tycoon declares: "I collect gold bars. They do not burn. If you keep them in a safe they do not wear a hole in your pocket like money..."

Coin Saga Ends Happily

A wandering \$2½ gold piece went back home recently, but not without some negotiations, and a dime cash expenditure.

Dr. Raymond Grunt, Elmhurst, Ill., spent the coin by mistake for a dime, tossing it into the collection box of the Illinois Tri-State tollway. The machine also thought it was a dime and accepted it.

Some weeks later, the doctor figured out where his gold piece had gone. In the meantime, the tollway had held the coin for a month and then sold it to a collector for \$11.

The collector agreed to sell it back to the tollway for his \$11, the tollway agreed to return it to the doctor, and the doctor agreed to pay the 10 cents to make the tollway's books balance.

Boy Coins Word To Phit

A six-year-old South Amarillo, Texas, boy was showing off a shiny cent. A seven-year-old coin collector was showing off his knowledge.

"See the 1959?" said the collector. "That means it was made in 1959. The D means it was made in Denver."

The six-year-old being duly impressed, the young collector continued:

"If it had been made in San Francisco it would have an S on it and some of the nickels made in Philadelphia have an F on them."

At this point an adult eavesdropper commented, "No, they had a P. Philadelphia is spelled 'Ph' not 'F.'"

"Oh," said the unshaken young collector, "Just like in Phennsylvania."

English Youth Questions Theory

A 13-year-old English boy wrote to the Manchester Guardian:

"I was sent two American \$1 bills for Christmas. One has on it 'In God We Trust', the other has not. Both have the same year on them."

"Which was printed first? Has the United States just started to trust in God, or stopped trusting in Him?"

Ancient Find Reported By Student

One of the oldest coins ever found in the Holy Land was recently picked up in a six-foot trench near Jerusalem by a university student in archaeology. It was a silver Greek coin minted about 530 B.C.

Experts said there was every indication the coin had been brought from Greece to Israel in the days when Ezra built his second temple.

Gunmen Take \$5,000 Collection

Three armed men forced their way into the John Feather home in Gary, Ind., February 21, bound Mrs. Feather and her guests and escaped with a coin collection valued at \$5,000.

Mrs. Feather, her sister and brother-in-law, Mr. and Mrs. Al-Jeh Sebahar, were tightly tied by the robbers. It took them two hours to free themselves and call police.

Mrs. Feather said the robbery occurred after the second visit by men posing as coin collectors. They asked to see her husband who was at work.

They asked for a pencil and paper when they returned. As she opened the door to hand the items to the men they shoved a revolver through the opening.

Two entered the front door; the third man came in through the back of the house. They located the safe in the basement, stripped it of the coin collection, and bound the victims to a chair. They loaded the loot into a suitcase.

The men were described as in their 30's; one was in his late 40's. The youngest man wore a brown top coat; the oldest had a black top coat and the third a short gray coat with a hunting cap, earmuffs and a white scarf.

Detectives compared the Feather robbery with that recently at the home of Mr. and Mrs. Nick Bikos, Gary. The Bikos were bound and robbed of a valuable coin collection, cash and bonds.

Detective John Monroe checks a small safe in the basement of the John Feather home, Gary, Ind., after three gunmen battered and pried it open to reach a \$5,000 coin collection. The three forced their way into the home at gunpoint, bound Feather's wife and her visiting sister and brother-in-law. Only the coin collection and money in the safe were taken.

New Acetate Bookshelf Albums Reach Markets

The first 11 numbers of the new Whitman Bookshelf Acetate Slide Albums are ready for distribution, according to the manufacturer, the Whitman Publishing Co., Racine, Wis.

"Nothing has been spared to make these albums the most desirable coin holders on the market today," Whitman officials said as they pointed with pride to the rigid construction genuine board cover like a finely bound book. The pages are stapled together at the hinge stub and the entire unit is bonded with the cover by means of reinforcing table and the end sheet.

Pages are securely held in the book, open flat, lie flat, and the soil-resistant, grained leatherette cover is durable and handsome. Titles are imprinted in gold on the backbone for easy shelf identification.

The size is seven inches by eight and three-fourths. All al-

bums are royal blue. The crystal clear acetate slides give two-side visibility and protection. Thumb notches make it easy to insert or remove coins.

There is detailed information about the coins, a complete mint record. A total of 46 albums will eventually be available, covering all United States and Canadian coins.

Special holders have been designed for U. S. commemorative coins, mint, proof and type sets.

Indianians Form Club

A new coin club is being organized in Michigan City, Ind., with its first meeting having been scheduled for late February. Interested collectors are invited to contact Mrs. Norma E. Hastey, 622 Lake Shore Drive, Michigan City, regarding time and place of further meetings.

British Talk Devoted To Portraiture

"Portraiture on English Coins" was the subject of a recent talk before members of the Kent Numismatic Society of Kent, England, meeting in the Maidstone Museum.

The speaker said:

The first portrait coins were issued by Offa of Mercia, and on most Saxon silver pennies there is a suggestion of portraiture. William the Conqueror continued the Anglo-Saxon type penny, but the design and fabrication declined. There was no real attempt at a portrait—the dies being produced by the use of primitive punches.

In the reign of Henry VII, real portraiture was attempted, due to the influence of the Renaissance, when the method of manufacturing dies was improved, so that a more regular coinage was produced.

Fine portrait coins were issued by Edward VI, while the representation of Philip and Mary may have been copied from the Spanish escudo of Ferdinand and Isabella. Elizabeth issued several types of coins, most of which show her richly clothed and lavishly bejewelled.

Common European Money Proposed

The creation of a common European money, to be called "Euro", has been proposed by Pierre Werner, president of the Council and Finance Minister of Luxembourg.

The proposal was made at a recent conference held at the Chamber of Commerce at Strasbourg, to discuss European finances and money in connection with economic integration of the "Common Market".

Pennsylvania Show In May

The Juniata Valley Coin Club of Altoona, Pa., has scheduled its eighth annual Coin Show, Bourse and Auction for May 5 and 6, to be held in the Duncansville Community Hall, Duncansville, Pa., just outside Altoona on U. S. Highway 22.

King Changed Coinage

Morocco's King Mohammed V, who died February 26 following minor surgery, not only led his nation to independence, he caused a major departure in coinage customs. For centuries only Arabic inscriptions were used, but Mohammed's likeness appears on a 500 silver franc piece, struck in 1956. A recent new coin issue, a one dirhem in silver alloy, carried the leader's profile. Five and 10-dirhem currency specimens also depict the hero image for the Moslem realm of 10 million, plunged into sudden mourning.

This Is A Fairy Tale

Once upon a time there was a Perfect Coin Dealer. Collectors loved him and bought lots of coins from him.

He was no fool—he didn't give away coins. But he bought right, giving the seller a good market price for his coins; and he sold right, again in line with current market prices.

But the Perfect Coin Dealer had studied his business. He learned that coin dealers can't exist without customers—coin collectors. He found out that there were a lot of little things the customer liked and he put these things into practice. He discovered that little things were important.

Over the years his business grew and grew. The Other Coin Dealers said he was wasting his time worrying about trivia, but the Perfect Coin Dealer didn't care. He kept on trying to improve his business and

Years went by. The cynical competitors who once laughed at the Perfect Coin Dealer began to sit up and take notice. The Perfect Coin Dealer was getting an awful lot of business.

That was bad. And what really bothered the Other Coin Dealers was the comments from their own customers! "Why can't you do something like the Perfect Coin Dealer?" they asked, and "The Perfect Coin Dealer manages to do such-and-such, why can't you?"

Finally, at a big convention, all the Other Coin Dealers banned together. "What's going on with this Perfect Coin Dealer?" they asked each other. But not one of them could give the answer.

So all the Other Coin Dealers decided to hire a Private Detective. "Find out why the Perfect Coin Dealer gets so much business!" they told the detective. The Private Detective went out and talked to hundreds of the Perfect Coin Dealer's customers. His expense account was very high.

He brought in his report, it was mimeographed and sent to all the Other Coin Dealers. No Unauthorized Persons were supposed to see it. The Other Coin Dealers read the report, but since all it contained was that trivia, they fired the Private Detective and threw away the reports.

The Perfect Coin Dealer continued to prosper. His name became legend among collectors. He sold lots of coins, made lots of money, and was loved by all coin collectors.

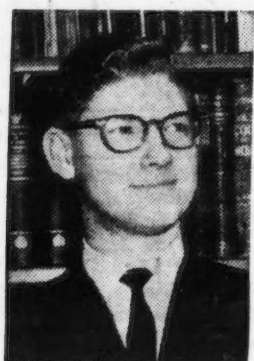

Recently, an Unauthorized Person found one of those mimeographed reports the Private Detective had written and he sent it in to us.

The report contains a list of the things the Perfect Coin Dealer always did. We'll quote from it:

"He never advertises coins he doesn't have in stock, ready to sell. He always fills orders promptly and correctly. He returns the customer's check if he is sold out. He always gives a full refund if he can only fill a portion of the order. He never charges the customer extra for postage or handling. He packs every shipment with care. He answers every letter. He uses courtesy with everyone and is always fair."

Of course the Perfect Coin Dealer lived happily ever after, selling lots of coins and making lots of collectors happy.

Moral: Give a lot of attention to those important little things collectors like.

Letters To The Editor

I belong to six coin clubs here in the Piedmont section of North Carolina and one in Virginia—and every one (at the coin club meetings and elsewhere) swear by Coin World. We depend on it entirely. So I wish you the very best in everything!

Charles B. Robinson
Greensboro, N. C.

Just recently I became a subscriber to Coin World. I enjoy each issue that I receive. However, there is one question I would like answered. Why is it that your advertisers do not use a standard form of coin classification or grading? Sometimes their letters or symbols are confusing.

W. S. Morris
Durand, Mich.

May I give you my profound thanks for the front page story you gave my Mardi Gras medal. For two whole weeks I received 35 to 40 letters a day. During the past week I have been receiving about 20 letters a day. These are results I never anticipated. Results from another paper netted only three to five letters a day during the time the ad was run in that one.

Your readers are especially loyal because they almost always either clip the ad or mention Coin World in their letters. This is itself a fine endorsement of your paper.

I want to run my ad beyond the original three time purchase and am enclosing suggested copy. You did such a fine job of composing my first ad for me that I'd like you to use your own discretion for any changes. You've proven to me that you are an expert and I'll accept your judgment.

Michael Kirk
New Orleans, La.

As a charter subscriber of Coin World, I have always admired the fact, that you have accepted constructive criticism in the spirit in which it was given. And you have done your best to give the collectors and dealers the finest publication possible. This has been more than evident in your, "letters to the editor" column, in which you publish both those for and against some of the things you have said and done.

I have never written a letter to you, which I wanted published, until now. But I feel I must comment on the article published in the February 9, 1961 issue of Coin World, in the, "letters to the editor" column. The Coin Collector, a numismatic publication, says, "That you are greedy for advertisements," in accepting an ad from a 17-year-old kid (which you did in good faith after checking references) in which some collectors were duped.

But at least you warned your readers in time, so that many more were not taken by this crook. The editor (of Coin Collector) goes on to say, "that faith in a coin publication is essential, and that this is usually acquired from an old and well established journal, and that it is shocking to think these fraud advertisements are published."

There is an old saying, "People who live in glass houses should NEVER throw stones." A few years ago, this same paper, The Coin Collector, ran an ad from a so called dealer on the west coast, which ran for months.

This dealer swindled thousands of collectors and dealers (I was one) out of thousands of dollars, and after being informed by me that I had been swindled and was filing charges with the postal inspectors' office and the police department where this dealer lived, (in San Francisco) this so called "holier than thou" paper, still accepted and ran ads from him.

These charges are now a matter of public record. The papers are still in the hands of the postal inspectors' office, in San Francisco, (nothing has been done to this day). Among these papers are, a page from the Coin Collector dated a few months after the editor was informed of the

above.

This so called fearless and honest editor, did not even have the courage nor the common decency, to answer my letter. Believe me, you have nothing to be ashamed of and much to be proud of, so don't let a case of sour grapes worry you. I am sure that you will be around long after those who knock you are gone.

Jack W. Nannery
Brooklyn, N.Y.

Even though I subscribe to the Coin Collector, I did not read the article that they had in their January 20th issue about the Coin World that you had printed in your February 9th issue.

They talk about faith in a coin publication and fraud advertisements. I don't possibly see how they can say that about the Coin World.

I have made several purchases through advertisements listed in the Coin World and I have always received the coins that I ordered. However, I am sorry to say that I cannot say the same thing about their publication. I have ordered coins from the Editors; yes, they are coin dealers who publishes their coin paper for their benefit, and have waited days, even weeks and one time over a month without a reply.

I checked with my bank to see if the bank money order had cleared. After finding that it had cleared, I had to write them a letter telling them that if they did not send me the items that I had ordered or return my money, I would file a complaint with the postal department for mail fraud. I got my money back 2 days later.

You may think, well this is an exceptional case, but I have a friend who has ordered items from them and they would return his money and inform him that the price had gone up.

I have come to the conclusion that the Coin Collector is a publication, owned and operated by two men who publish only what they want and they try to push and sell their own coins at the expense of their advertisers.

Robert W. Grass
Keokuk, Iowa

I am sending you 21 names of some more folks who may be po-

tentional subscribers to Coin World I'm a city bus driver here and I've gotten to know quite a few people. I've been a coin collector for about a year now.

I should have been at it long before then because if I had, I probably could have opened up a coin shop by now. I hope to be in the mail order coin business in six months or so. I should have been doing this 10 years ago—"too soon old, too late smart"—that's me!

Enclosed is \$3.00 for my Coin World "birthday gift" subscription to send to three children I know who have no father. I'm trying to get them interested in coin collecting because it will no doubt help to keep them off the streets and give them something to occupy their time.

Harold E. Ball
Portland, Oregon

Many folks wonder what my real middle initial is. It is "S". I key my advertisements by changing my middle initial as follows: I use C for Coin World; B for Scrapbook; P for Coin Press, etc. I get more letters with C than all others combined and I have eight different ads running...so I spend eight times more in ads in Coin World.

Neil C. Utberg
Edinburg, Texas

I want to thank you for the nice selling job you did on the hundreds of rolls of Liberty Nickels which I had to sell. I believe that when the ad was moved into the classified pages, it did even better! You'll hear from us soon. If you know where I can land tons of "V" 5c, let me know!

Mid-March Deadlines For Montana Show

Deadlines for exhibit and bourse table reservations have been set as March 18 and 15, respectively, for the organizational convention of the Northwest Central States Numismatic Association, scheduled for March 25 and 26 at Billings, Mont.

A chairman for both exhibits and bourse has been appointed, Sally Clayton, 118-8th Street West, Billings.

Exhibitors are required to be registered and present at the convention. An exhibit fee of \$1 will be charged, which includes one case, with a maximum of two cases allowed per exhibitor. Police protection will be provided for all exhibits.

Displays will be judged on the American Numismatic Association point system, with winners given awards and special ribbons. A grand award trophy will be given the best-in-show.

Charges for bourse tables are \$20 per table for the two days, including one display case. One additional case will be available for an additional \$5 fee. Dealers bringing their own cases will be charged only \$15.

Francis H. B. George, 27 Yellowstone Avenue, Billings, is general chairman for both the Coin Show and the organizational convention, sponsored by the Billings Coin Club of which W. R. Scott is president.

Midoms Meet First Friday

Chicago area medal devotees are invited to meet with the Midwestern Orders and Medals Society (MIDOMS for short) at 8:30 p.m. on the first Friday of every month at the Lawson YMCA, Room 408, 30 W. Chicago Avenue, Chicago.

Frank Racine, of Lyons, Ill., is the newly-elected president; Walter P. Huber, of Chicago, secretary-treasurer, and Philip Weber, of Mokena, Ill., librarian-curator, are also new officers.

Members bring medals, books and other hobby-related items and give brief talks on them at each meeting to open new avenues of interest.

Teacher Starts Club

A coin collectors club has been organized at Oak Ridge, Tenn., with Adam Lanning, teacher at Oak Ridge high school, as the instigator. Any collectors in the area interested in joining a club are invited to contact Lanning.

NEW ORLEANS MARDI GRAS MEDAL ISSUE HALF SOLD

This first of a series of New Orleans Mardi Gras medals was designed for collectors. The issue is limited to only 5000 pieces and half the issue has already been sold.

Because St. Valentine's Day and Mardi Gras were on the same day, (Feb. 14), this medal shows a cupid with mask on the obverse and the Seal of the City of New Orleans on the reverse.

The obverse will be changed each year on this 1-7/16 nickel silver medal. This should make an interesting addition to any collection.

TRANSITIONAL INDIAN CENTS

We offer select specimens of the three most important transitional Indian cents . . . as important to complete your Indian cents as the 1856 transitional flying eagle cent is to complete the flying eagle set.

1858 INDIAN CENT: 1858 Indian cent, copper-nickel Proof. Obverse and reverse identical to the regular issue 1859 Indian cent in all respects except the date. Very rare, only about 200 pieces known (compare with the 1500 known specimens of the 1856 F.E. cent). A beautiful coin and one which will create more interest than any other coin in your Indian set. Br. Proof. \$475.00

1859 INDIAN CENT with reverse of 1860. Copper-nickel, Brilliant Uncirculated. Obverse: Indian head as regular 1859 issue; reverse: with oak wreath and shield as adopted in 1860. Rare. \$195.00
 An excellent investment item

1863 INDIAN CENT—struck on a thin bronze planchet, type of 1864 and later. Important and significant as the forerunner of today's bronze cent. About 150 to 200 pieces are known . . . these were struck to persuade Congressmen to forsake copper-nickel metal in favor of the more economical bronze. Brilliant Proof. \$225.00
 Rare

SPECIAL: If you want to acquire all three transitional cents at the same time, we offer a special price. \$475.00, \$195.00 and \$225.00 totals \$895.00. We offer the SET OF THREE FOR ONLY \$795.00 or a saving of \$100.00

With the increasing interest in Barber Proof coins this should be a good investment. \$445.00

Dakota Token

This Dakota Centennial commemorative depicts two capitol and General Custer, taken from a Brady photo. Unlike most such tokens, this one has a face value and can be spent, through next September 5. These medals are used as a medium of exchange, and for promotion of the "Trail West" drama, played each year during June and July at the site of the old Fort Lincoln. It features the historical life of General Custer and the events leading up to the battle of the Little Big Horn and Custer's famous encounter with Sitting Bull.

Club Meets At College

Next meeting of the Brunswick Area Coin and Stamp Club of Brunswick, Maine, is scheduled for Thursday, March 9, at 7:30 p.m. in Adams Hall of Bowdoin College. Interested collectors of the area are invited.

After eight new members were inducted at a February meeting, the club now totals more than 80 on the rolls. At the same session it was voted to accept new members by vote of a majority of the officers rather than by vote of the entire membership.

Other business included the se-

lection of Frank L. Doggett, Topsham, Maine, as corresponding secretary, and the awarding of a special prize of a Whitman album to Rene G. Sylvester, Brunswick. President William E. Elms and vice president William O. Robbins conducted an auction of Canadian and U. S. coins. The new members taken in at the meeting included:

Harry L. Day, Dixie E. Tuck, Bruce M. Stockford, Frank Sabasteanski, Jr., Norman W. Emerson, Charles L. Merry, Mrs. Helene P. Carter and Mrs. Edna R. Wilson.

Twin Sets Of Officers Club Project

A double set of officers has been elected for the recently organized Jun-Ad Coin Club of Greensburg, Ind., and a permanent date and place of meeting chosen.

The Jun-Ad club was so named because it was intended to have equality of membership for both juniors and adults. The double set of officers gives equal representation to both groups. They include:

Ed Morrison and Ricky Acra, senior and junior president, respectively; James Conwell and Mike Miner, vice presidents; Willard Jones and Pete Smith, secretaries; and Paul Turner and Alan Barnett, treasurers.

Charter memberships in the club will close at the end of the next meeting, set for Monday, March 13, in the Decatur County Y.M.C.A., starting at 7 p.m. The group will meet thereafter on the second Monday of each month, in the same place. There were 36 charter members following the February session.

McMann Chairman Of Lincoln Land Show

Walter McMann of Springfield, Ill., has been named general chairman of the two-day coin show and auction to be sponsored by the newly organized Lincoln Land Coin Club, June 17 and 18, in Springfield.

McMann was also general chairman of last fall's show put on by the Central Illinois Numismatic Association, also of Springfield.

Ventura Club To Meet

Next meeting of the Ventura County, Calif., Coin Club is scheduled for Monday, March 13, at the Recreation Center in Ventura.

Coins Offer Everyone Something

By Jim Kelly

333 West First St. Dayton 2, Ohio

It's hard to imagine anyone going so far as to buy and collect rolls and proof sets and still be able to resist at least one of the many different and interesting series of numismatics! There are fifty-eight facets on a diamond, and while I haven't enumerated them I am sure there are as many more in collecting. A worth-while numismatic collection can be formed which will require and put to use, the talents and interests of most anyone. For those technically inclined, there are the many die varieties of our early U. S. coinage.

Jim Kelly

For the historic-minded, there is more material than could be acquired in several life-times. For the ladies who have recently taken an active interest in numismatics, there are coins with portraits of famous women, and I know of one collection made up entirely of women with unusual hair-styles, and another of different women's hats.

For the nautical, there are many coins with ships; and for the naughty, there is always the Roman coinage. It is, without a doubt, the greatest, most interesting, all-embracing hobby that is legal.

Given a chance, numismatics can fill quite a void in many people's lives and does not necessarily require a fortune to do it. If some of the time is spent going through roll after roll of coins was used in reading a few numismatic books and if, when attending the conventions, more time was spent looking over the displays rather than hunting bargains, a greater profit, not measured in dollars, might be realized! We force our children to go to school to learn things they don't like, but we refuse to take a few moments to learn about our hobby in which we have a great deal of interest and a considerable investment. Could be that is where they got the expression—"numismaniacs."

Fair To Very Fine Brown - Dunn Defended As Authorities For Grading

By James G. Johnson

Everybody has been talking about grading coins, so I think it is my turn. Grading is one of the most important aspects of numismatics, once you get beyond the beginning of just filling holes. When a collector starts to buy, sell, or trade, the condition or grade of the coin is the basis of any deal he may make.

But, unfortunately for the beginner or the average collector, grading has been like what Mark Twain said about weather—"Everybody talks about it but nobody does anything"—at least for the benefit of said average collector.

Nobody, that is, until messrs.

Brown and Dunn came along. Please don't anybody jump to the conclusion that I agree wholeheartedly with everything B&D says. I don't. But what criticism I have seen has been mostly destructive and nothing better offered, so I would like to defend them a little.

Grading for generations has been an individual matter, although the better dealers and most experienced numismatists were in general agreement. However, since most of the collecting was done on the "Fine" or better level, agreement was easier than it is now. Also, with collectors much fewer in number, any dealer or collector who tried to cheat on grading was easily spotted and discouraged, one way or another. It's different, now.

Jimmy and I learned grading the hard way. When we started to trade duplicates early in our

collecting, we were slapped down or gently told, as the case might be, that we were off. So we got in the habit of asking how to grade this, that, or the other, of all the experienced dealers and collectors we could find in our coin clubs. So we learned.

The Red Book was no help, except where it says for "Fine", "All letters in Liberty and mottoes clear". That is specific, and clear enough for anybody to understand, so far as it goes. So, that was one standard we went by.

Other specific things we learned were that the Buffalo nickel had to have half horn for Very Good and full horn for Fine, and that the wheat lines on the Lincoln cent and the lines on the fasces of the Mercury dime had to be clear for Fine.

But we had to learn those things by asking questions. Nobody had ever taken the trouble to write them down. And those details are what the beginner and the average collector needs. Specific details, not just general statements.

So along come Brown and Dunn. They have hedged a little on some series and some grades, but who has done better? So far, their little brown and dun book is the only one around which collectors can rally. Until somebody comes out with something better, I suggest we stick with them.

A man in Paris, Texas, has offered some pictures to illustrate grading. I agree with his standards even less than with B&D, even though he has an excellent idea for a foundation. He and B&D should get together! L. E. Chamberlain of Mansfield, Ohio, has suggested using the stars on coins as grading bases. The main objection to that is that stars are too subject to die defects, otherwise he has a good idea.

As for the man who grades down when buying and up when selling, Phooey! I agree with Jim Kelly's idea of grading a coin for selling as you would want it when buying, also that age should not alter the grading standard.

Incidentally, "upgrading" a coin for sale is encouraged by the differences in column headings used in the Blue and Red Books. Let somebody think that one over for a while!

The greatest service that the American Numismatic Association could render coin collecting today would be for it to improve on Brown and Dunn.

It has the experienced personnel that could do it and do it better than any other organization in numismatics. Maybe then we could hold onto some valuable traditions.

More on this topic, soon. Reading my mail, again. Bill Briggs of Lima, Ohio, writes (Continued on Page 12)

me that I pulled a "blooper" in this column on February 23, when I told Mrs. Hall of Marthasville, Mo., that an "F" in Liberty on the Walking Liberty half dollar could be from a filled die.

Bill is perfectly right. Trouble is, I answered Mrs. Hall when I did not have a coin handy, and was not thinking, or I should have remembered that what looks like an F is the same on all such half dollars—the design is made that way. I knew that but didn't think about it. Please accept my apologies, Mrs. Hall.

A letter which I received several months ago and mislaid, has come to hand. It was from Mrs. M. P. Kerr of Clearwater, Fla., and Cleveland, Ohio. Mrs. Kerr was on the staff at Mt. Union College at the same time I was, and our offices were nearby.

She wanted to be remembered, and said that she has taken up coin collecting since that time, and saw my name in Coin World. I am sorry I have been so long in acknowledging your nice letter, Mrs. Kerr, and I have not forgotten what you were trying to do in personnel work.

Have you visited the Clearwater Coin Club? It meets this month on Monday evenings, March 6 and 20, at the Clearwater Chamber of Commerce.

Joseph S. Cebulak, Union, N. J., writes about a silver coin he has, dated 1780, enclosing a rubbing, and would like identification. Your coin is a Maria Theresa (or Theresia) taler or Thaler, Mr. Cebulak, the spelling depending on what language you like. There is a story behind that date and that coin, and we are about to print it, with picture, but it got crowded out of the last issue. I notice some dealers advertising the coin for sale in proof at \$1.50 which may give you an idea of its value.

Don't let that bother you. It is an interesting coin with a history, and it is still being minted without any change in the date, for current circulation. Watch for the story soon in Coin World, also one on Yemen which mentions it.

Japanese Overprints Translation Told

For the benefit of collectors who have specimens of Japanese Military "Hong Kong" notes, here is a translation of the overprints: The four large characters on the obverse and reverse mean "Military Use Hand Note". The other idiographs on the obverse mean Japanese Imperial Military Government. On the reverse, on right, "In settlement of all transactions". On left is warning of death penalty to forgers. Mexico's 1931 Coinage Is Limited

No coins of silver, nickel or copper were issued by the Mexico City Mint in 1931. Striking of gold was prohibited on July 25 of that year, and gold coins were withdrawn as legal tender. Other coinage was specified, but it just happened that no coins of the metals mentioned were minted.

Transitional Coins Described And Priced

Area Long Neglected Now Revived

By Q. David Bowers

A transitional coin is a coin struck from dies of an adopted type in the year(s) just before the type was adopted for regular circulation; or a coin with one die of the adopted design and the other of a design adopted shortly afterwards. This immediately differentiates transitional coins from the series of patterns which consists largely of unadopted designs.

For many years most transitionals languished in obscurity. The transitional coins fortunate enough to be listed in the Guidebook and its contemporaries were eagerly sought after.

Such listed transitionals include the 1856 flying eagle cent, 1859 and 1860 dimes and half dimes, 1836 reeded edge half dollar and the 1849 double eagle. Other transitionals, equally deserving and equally important, were forgotten entirely.

A person desiring to collect transitional coins or add them to his sets of regular issues had to delve into Adams and Woodin's "U.S. Pattern, Trial and Experimental Pieces" to learn which were transitionals among the various patterns listed.

The first definitive listing of transitional coins as such, "The

Transitional Coins of America," was written by us and appeared in the publication "Empire Topics" in serial form, beginning in February 1959. Prices were not included in the descriptions as too few sales figures were known to us to establish definite values.

Today, however, the picture has changed. Dozens of transitionals have appeared in price lists, private offerings and in auctions. We have kept a record of these offerings and use it as the basis for our price suggestions below. While no pricing guide can be 100 per cent accurate and up-to-date we believe that this is the best guide issued thus far.

In this listing we have included the approximate number of pieces known of each variety in parentheses after each coin. The list is cross-indexed with "United States Pattern, Trial and Experimental Pieces" by Edgar H. Adams and William H. Woodin (listed as AW numbers) and with "United States Pattern, Experimental and Trial Pieces" by J. Hewitt Judd, M.D. (listed as J numbers).

The transitionals are listed by denomination, from cents to double eagles. Only the authorized metals are listed; for example, all transitional half dollars are struck in silver. Transitionals struck in other than the intended metal for coinage are transitional trial pieces and are not listed.

1858 Flying Eagle cent; obverse, and reverse as adopted in 1857. J.180; AW 206. (1000 Proof; 600 Unc.). Unc. \$800; Proof \$1000.

1858 Flying Eagle cent; obverse regular die of year with small letters; reverse, laurel wreath as adopted in 1859. J.191. (50). Proof \$475.

1858 Flying Eagle cent; obverse regular die of year with large letters; reverse, laurel wreath as adopted in 1859. J.196; AW 244. (30). Proof \$525.

1858 Indian cent; obverse, Indian head as adopted in 1859; Reverse, regular reverse as used on F. E. cents. J.213; AW 270. (80). Proof \$475.

1858 Indian cent; obverse and reverse exact type of 1859. J.208; AW 264. Genuine pieces have the date, 1858, in a straight line. We have seen false pieces made by altering 1859 cents. These are readily distinguishable by the curving date. (200). Unc. \$375; Proof \$475 (Records as high as \$600 for Proofs.)

1859 Indian cent; obverse of 1859 as adopted; reverse with oak wreath and shield as adopted in 1860. J.228; AW 312. (700-800 pcs., nearly all Unc.). Unc. \$200. (have seen advertised as high as \$350.); Proof, rare \$360.

1863 Indian cent, struck on a thin bronze planchet as adopted in 1864 and later years. No L on ribbon. All known are Proofs with inverted reverses. J.299; AW 423. (200). Proof, \$225.

1863 Indian cent, with L on ribbon. Thin bronze planchet. One of the rarest transitionals. J.301; AW 428. (3-5 known). Proof \$3000.00

1863 two-cent piece. Exact type of 1864 large motto (this is interesting, it suggests that 1864 small motto two-cent pieces were not the first type struck, but could have been struck at any time during 1864). J.316; AW 416. (40). Proof, \$700.

1865 Shield nickel with rays, exact type of 1866. J.416; AW 506. (9-10). All Proofs. Lot No. 2144 in the 1959 A.N.A. sale sold for \$1400. Another piece was recently sold privately for \$2500.

1865 Shield nickel without rays, as adopted in 1867. J.418; AW 508. (6-7 pcs.). Extremely rare. No recent bona fide sales records known to us. Worth at least as much as the 1865 with rays listed above, if not more. All known are Proofs.

1866 Shield nickel, without rays, as adopted in 1867. J.507; AW 570. Original estimate of about 5 pieces

known revised to 9-12 pcs. known. Proof \$1250.

1882 Liberty nickel, exact type of 1883 without CENTS. J.1690; AW 1675. (60). Of moderate rarity, but extremely popular. All proofs. Advertised as high as \$2500. We once received a bona fide offer of \$1800 for a specimen of this coin. The value of this coin has increased tremendously, due to the widespread knowledge of its existence. Only two or three years ago they sold for \$400 to \$750.

1859 Half dime, obverse as used in 1859, reverse as adopted in 1860. J.232; AW 309. (25). \$750. All Proofs.

1860 Half dime, obverse type of 1859, reverse of 1860. J.267. (100). All Unc. Records of sale range \$350 to \$550. One was sold in Chicago for \$1200, a reliable source confirms.

1859 Dime, Obverse of 1859, reverse of 1860. J.233; AW 308. (15-20). All Proofs. Several two and three year old records in the \$1200.00 range. Worth more today.

1891 Dime, the Barber design as adopted in 1892. J.1760; AW 1734. (2) in the Smithsonian Institution.

1863 Quarter, type adopted in 1866 with motto IN GOD WE TRUST. J.335; AW 378. (12). All proofs. \$250.

1864 Quarter, type adopted in 1866 with motto IN GOD WE TRUST. J.386; AW 440. (10). All Proofs. \$300.

1865 Quarter, type adopted in 1866 with motto IN GOD WE TRUST. J.425; AW 499. (12) All Proofs. \$275.

1836 Half dollar, reeded edge, type of 1837. J.57; AW 55. (1000, nearly all originally Unc.). Unc. \$160; Proof \$750.

1838 Half dollar. Obverse, Liberty seated as adopted in 1839; Reverse, die of 1837. J.82; AW 79. (3). No sales records known to us.

1838 Half dollar. Obverse, Liberty seated as adopted in 1839; Reverse, regular die of year, HALF DOL. J.83; AW 75. (1). In the Smithsonian Institution.

1863 Half dollar, type adopted in 1866 with motto IN GOD WE TRUST. J.342; AW 371. (10). All Proofs. \$350.

1864 Half dollar, type adopted

in 1866 with motto IN GOD WE TRUST. J.391; AW 436. (6). For some reason this is much rarer than the transitionals which precede or follow it. All Proofs. \$500.

1865 Half dollar, type adopted in 1866 with motto IN GOD WE TRUST. J.429; AW 494. (12). All Proofs. Priced in the Guidebook for \$150.00 in 1949, twelve years ago. Worth about \$350 now.

1863 Silver dollar, type adopted in 1866 with motto IN GOD WE TRUST. J.345; AW 367. (12) All Proofs. \$500.

1864 Silver dollar, type adopted in 1866 with motto IN GOD WE TRUST. J.396; AW 433. (6). All silver. Very rare. \$700.

1865 Silver dollar, type adopted in 1866 with motto IN GOD WE TRUST. J.434; AW 490. (15). All Proofs. \$500.

1865 Half eagle, type adopted in 1866 with motto IN GOD WE TRUST. J.445; AW 475. (2-3) No recent sale records known to us.

1865 Eagle, type adopted in 1866 with motto IN GOD WE TRUST. J.449; AW 471. (2-3). No recent records known to us.

1849 Double eagle type adopted in 1850. J.117; AW 105 (1). Several supposedly struck but only one known; in the Smithsonian Institution.

1860 Paquet reverse double eagle, reverse design as used on the limited issue 1861 and 1861-S Paquet issues. Not listed in Adams-Woodin or Judd. One known, in the Smithsonian Institution.

1865 Double eagle, type adopted in 1866 with motto IN GOD WE TRUST. J.452; AW 468. (2-3). No recent sale records known to us.

1876 Double eagle, obverse as adopted in 1877 (coronet point midway between sixth and seventh stars), regular reverse of

year. J.1488; AW 1464. Only one known, the Hazeltine-Nagy-Newcomer piece.

1876 Double eagle, obverse and reverse (with TWENTY DOLLARS) of 1877. J.1490; AW 1466. Unique, same pedigree as above piece.

Club Plans SS Speaker

A Secret Service agent from the Kansas City office was scheduled to speak on "counterfeiting" at the Wednesday, March 8, meeting of the Wichita Coin Club in the Sedgewick County Courthouse, according to a club report.

This was the club's 152nd meeting, and the start of its 15th year of activity, as it was organized in 1946. The club is now incorporated, as of January 24, the report stated.

Also scheduled to be discussed was the club's two-day coin show, slated for May 13-14 at St. Anthony's Community Center and directed by Floyd Withers, Pratt, Kansas.

At a recent meeting, the Wichita club adopted a resolution urging Kansas legislation making it illegal to alter U.S. coins or to offer altered coins for sale.

The Cleveland Stamping Plant Coin Club of Walton Hills, Ohio, celebrated its eighth month of existence in February by announcing it had been accepted to membership by the American Numismatic Association.

In March, the by-laws committee was prepared to make its report, and nickels were to be the subject for discussion.

Wells Fargo Teller Talks

Recent speakers at meetings of the Pacific Coast Numismatic Society of San Francisco, Calif., have been J. Sam Norwood, who spoke on his experiences with coins during 20 years as a bank teller with Wells Fargo; and Martin Pleskow, who talked on "The True History of the rulers of the Austrian Empire and their Coinage".

Schulman Reports

Color, Excitement Mark
Kreisberg-Schulman Sale

Hans Schulman long days of selling.

First there was auctioneer Donald D'Amato losing his voice a few hours before the sale and frantically looking around for a replacement which he did find in the able stamp auctioneer, Vahan Moizian.

Friday evening, however, with the help of hot coffee, a microphone and some kind words, his voice, meekly returned. Then there was this well known dealer who came over to the auctioneer and told him that he wanted to have the names of all the bidders on any lots he wanted to purchase and did not obtain. Clearly against any law, but this did not keep him from asking.

You should have been in the corridor next to the auction room. It was just like a regular convention. In between the collectors and dealers had almost a complete bourse going with hectic trading. The floor manager of the Waldorf asked me what was going on but when I told him that the collectors are getting some fresh air in between lots, he felt satisfied. I told him that they were showing their purchases from the auction room proudly to each other.

The local press gave the sale a big write up, before and after which also made for the large attendance and the heavy mail following.

Orders had poured in from every part of the globe, from Australia, from Alaska, from Hong Kong and Japan, from all European countries, even some behind the Iron Curtain and then the dealers and collectors flew in from many States of the Union. Some had quite a bit of trouble flying back since the flight engineers went on strike but by Washington's birthday we did not see any more stray numismatists walking around the streets of New York.

In the last issue of Coin World you saw some of the prices obtained in this auction and you can note the upward trend in al-

most all important coins. This re-confirms my article of a few weeks ago that no recession in the field of numismatics is expected.

Days before the sale the inspection of lots had started and there were so many interested parties that it was at some times difficult to show lots. Foreign buyers from some of the Latin American countries were in the audience and called their bids in by telephone as far away as from Japan.

One of the school papers in New York devoted a complete column to the sale and this charming mimeographed sheet written and edited by two young boys at Trinity School in New York is now in front of me while I am writing my column. The last page of this sheet struck me quite funny and I am copying it literally:

LITERARY STAFF: Editors in chief, Peter Vermont and Ricky Leyshon Editorial page: Ricky Leyshon and Peter Vermont Advertising: Peter Vermont and Ricky Leyshon.

PRODUCTION STAFF: Typing: Peter Vermont. Stencils: Ricky Leyshon. Mimeographing: Ricky Leyshon and Peter Vermont.

The page also lists seven separate advertisements of coins and the first ad is by Ricky Leyshon offering proof sets; the second is from Peter Vermont offering Mercury Dimes, the third is an ad by Peter for the coin cleaner; the fourth is by Peter for a checklist, the fifth is by Peter for Roosevelt dimes and the last ad is by Peter wanting Lincoln cents.

The variety of advertising intrigued me more than anything else. Some of the visitors to the Kreisberg-Schulman Waldorf Astoria sale wore boots and carried skis figuring that the proverbial biweekly blizzards would continue but apparently Abner and Jerry took some of the California weather along bottled.

One buyer complained and said why couldn't this big yearly auction be held in another month? Well the answer is quite simple. February is about the only month that there aren't any big conventions around the country which ties up the important dealers from attending. And then snow has been a rarity in New York since 1947 as rare as the coins we sold. Big competition in the foreign field was on the Canadian dollars which brought top prices and which taught us many new things. The German and Italian coins were next in popularity followed closely by the Russian.

It was sad to see that the coins of the Peruvian mint of Potosi

could not drum up enough interest. Coins which used to sell for 150 dollars hardly made it at 50 and many valuable coins sold as low as 10 dollars with nobody fighting about it either.

As I explained in earlier columns there is always a series in numismatics which does not go. One should buy those series because eventually they will go up again to its former heights. However, nobody cared about the Potosi. We do not see a change in the near future, however.

The coins of the Lima mint were a bit better and the famous set of the first coins struck in the Americas at the Lima mint brought 2900 dollars and were bought by a collector in the U.S.A. This set minted during the reign of Philip II in 1568 belongs to the earliest colonial coins of the Americas.

Curators were a dime a dozen in the auction room. I spotted Henry Grunthal of the ANS; Dr. Stefanelli Clain of the Smithsonian Institution in Washington; Vernon Brown and David McClymont of the Chase Manhattan Money Museum and others. Whenever you went to an East Side Eatery you would see some numismatists mixing steak with coins.

I saw Irving and Ruth Moskovitz at the Envoy talking meat and platinum (By the way I think Irving is on the way to have one of the largest platinum collections).

I saw John Pittman and Sol Kaplan in a huddle at the Peacock Alley. I saw investigating experts discussing with important numismatists how to stop the robberies and they came with satisfied expressions from the highly secret meetings. I saw collectors from Dallas and Houston hardly accustomed to our rough climate enjoying the beautiful coins they got.

Mortimer Hammel was in the auction room sunburned . . . this is one guy who did not get burned by the high prices of coins; only by the sun . . . but where because Miami did not report seeing him. Fox Steinberg flew in from a tour through Europe just in time to hear the Panama Pacific set near the \$7,000 mark and there were many other out of towners like Cathy Bullowa and Howard Gibbs and Frank Saab. Cleveland was represented by Ambassador and Mrs. Norweb. A collector from Mexico City bought Swedish coins and a collector from Hamburg bought Mexican coins.

All this and many many others made the sale as entertaining as a convention.

Massachusetts was well represented and they showed a great interest in the ancients and we heard that Robert Friedberg broke off a trip to Houston earlier in order to buy the rare 40 drachme 1852 of Greece for \$1500 which was one of the rarest coins in the sale.

Another collector bidding on this lot had just come from a year on Cyprus and many months in Athens but he could not keep up with the enthusiasm which Friedberg displayed. Quite understandable because who wrote the book on the gold coins of the world?

The sale totalled over \$300,000; exact total will be published with the price list when ready.

Louisiana To Have

Representatives of Louisiana coin clubs were scheduled to meet recently in Alexandria, La., to form a state association, to be known as the Louisiana Numismatic Association.

Presiding over the meeting was to be Bill Kearns, president of the Cenla Coin Club of Alexandria, with Matt Rothert, Camden, Ark., officer of the American Numismatic Association, scheduled to assist in the organization of the L.N.A.

We were planning to have the COIN WORLD Linotype operator use his 5½ point type (like this) so we could fill the above space with approximately 12,359 words of glowing praise and elegant claims for our coin albums—words cunningly calculated to fill the heart of a coin collector with burning desire to possess these beauties. He would dash madly to his nearest dealer and buy albums by the dozen. But 5½ point type (like this) is awfully hard on the eyes, and this has been a rough winter!

Gold Prices Unchanged Most Places Says Writer

By Axel Miltander

A reader of Coin World has read about the increasing prices of gold in Europe and asked me what's true - or not. I will try to give my answer and also to give my own opinion of the actual gold-market even if I'm not any financial expert.

First of all: increasing gold-prices is a phenomenon mostly in London only, depending upon that Europeans will change their dollar-value from dollars to gold. The high demand increased the prices from 35 dollars up to 40 dollars per oz.

You must remember, however, that gold-prices are unchanged in nearly all other countries in Europe. They are, for instance, still 35 dollars in Sweden, and the opinion is that the price will stay there. I also visited some dealers here last week and discovered that prices of gold-coins were unchanged.

Even if gold-prices would increase in a future I don't think it would mean higher prices for coins, a dealer said to me. We must remember that the numismatic value of gold-coins already is higher than the value of the metal.

And what happens in the future? Look at the gold situation in the last century.

As you surely know, a capital put into a bank will be doubled after about twenty years, checked after compound interest. So if I put 20 dollars into a bank in 1869, I had 40 dollars in 1880, 80 dollars in 1900, 160 dollars in 1920, 320 dollars in 1940 and 640 dollars today! I think that I can buy a gold coin much more cheaper than so. In fact: gold is a very bad investment for persons who would like to have their money living!

Another example: if I, being a Swede, bought gold for \$100.00 for twelve years ago, I can sell it today and receive \$100.00 because the gold-prices are unchanged here (and also in USA). I have lost not only my interest but also a lot of my money as 100 dollars had a higher value for twelve years ago than they have now, depending upon the inflation we have here (and in USA).

So investment in coins must be an investment in the numismatic value, not in the metal one.

It is my personal opinion, however, that the gold prices must be increased in a near future, not because of speculation in Europe but of the international inflation.

If I worked two hours in 1950, I earned money enough to buy 1 gram of gold. Today I get 2 grams if I work two hours. Five years later from now I possibly

can get 4 grammes as long as the international inflation continues.

But gold is a scarce metal and the proportion between gold value and money must be nearly constant. If we will try to keep the gold value, we must give it higher price. I think it happens in all countries not so far away from now.

But then the proportion between dollar and other currency will be as it is now. It has been said, that the gold demand depends upon not so good reputation of the dollar anymore. Never so. It has also been said, that the demand is a move at chess from Russia. Never so. Russia has made big gold finds and recently it sold gold for 25 millions. Why should they sell gold one day and buy it back the next day for higher prices?

Investment is a big problem for many. Some makes money - and it is O.K. - others burn their fingers. I think you burn your fingers if you invest money in gold coins of bad quality and in coins, which are said to be "kilo-ware" here. We have two types of gold collectors here, numismatists and "kilo-ware"-accumulators. The latter ones have as a good rule not to pay more than 8 crowns per gram (1.60 dollars), a dealer told me. Many of the European gold coins from last century are so common, that they have just no more than their metal value, remember that.

An example: a Danish and a Swedish 20 crowns gold coin have the same weight. If you sell them to a bank here, you get about 9 dollars each for them. The Danish have a numismatic value of about 16 dollars and the Swedish about 24.

Speaking about investment I will give you another opinion. If you collect stamps and come to Europe you can sell, for instance, the Columbian set or other US stamps wherever you are. You will always find a demand for them. If you come to Europe offering a roll of nickels, no one would buy (Continued on Page 23)

made itself well known in the area, through its large attendance, its annual one-day Coin-ival, and its "Member of the Year" awards. Through the Coin-ival, it has made substantial contributions to the Oakland Boys Club, and it has been instrumental in securing widespread publicity on coin collection.

This year, the East Bay club is co-host with the Hayward Area Coin Club for the California state meeting.

Napa To Have Club

A new coin club has been organized at Napa, Calif., which had 43 persons in attendance at its opening session.

The club meets for the time being in the "all-purpose" quonset hut of the Davis Elementary School on Pueblo, between Jefferson and the Freeway (Highway 29) in Napa.

Officers of the new club include George Meilink, president; John Lucas, first vice president; George Altamura, second vice president; A. A. Segersten, secretary, and Caye Ellis, treasurer.

MENTION "COIN WORLD" IN
ANSWERING ANY AD!

The medals will be in nickel-silver, sterling silver, and 14 carat gold. Slightly larger than a half dollar, they will be encased in plastic and will sell for \$1, \$2.50 and \$35.

Anyone wishing to order these medals may do so by writing Byron Johnson, 606 West 80th, Seattle 7, Wash. Reservations for the dinner may be made to the secretary, Florence Seiter, 4139 20th Street, S.W., Seattle 6.

Marie Theresa Thaler

Austrian Mint Regains Mintage Of Famed Thaler

For the past 25 years, the famous Maria Theresa Thaler with the 1780 date, has been coined in Italy. It has now gone back home.

The right of the Italian State to mint these coins has been annulled, and the Austrian Mint has regained the monopoly it once had.

It was a monopoly, of course, because the Maria Theresa Thaler originated as an Austrian coin, and as such could not have been legally coined by any other country. Why the 1780 date is still minted is another story, familiar to experienced numismatists, but probably not to newcomers in the field.

Bank Exhibits Famous Dollar

The 1804 silver dollar, for which Sam W. Wolfson paid \$28,000 recently, is now on exhibit in the lobby of the Barnett National Bank of Jacksonville, Fla., of which Wolfson is a director.

Wolfson has had the coin insured for \$50,000, according to reports. It is part of a collection worth nearly \$2 million which is kept in the bank's vault.

Four other rare coins share the exhibit with the 1804 dollar. They are an 1876 20-cent coin, an 1866 silver dollar without motto, an 1870-S dollar and an 1884 Trade Dollar.

Briefly, the thaler of that date become familiar to natives of certain Eastern countries, notably south of the Mediterranean, and they have refused to accept anything else in the course of business, claiming coins with other dates could not be good. Yemen is one example where the 1780 coin still circulates.

Frank Thompson Phillips

Theft Charge Filed Against Pennsylvanian

Frank Thompson Phillips, accused of the armed robbery of between \$3,000 and \$4,000 in rare coins from a South Boston, Va., man, was free on \$25,000 bond after he appeared before Judge G. E. Mitchell Jr.

The 34-year-old New Kensington, Pa., man will appear in a Virginia Circuit Court March 3.

He is charged with handcuffing and blindfolding L. P. (buster) Waskey Jr. with the aid of four confederates last October 2, and entering the Waskey home to steal the coins.

Phillips was transferred to Halifax County, Va., from Chatham, Va., where he had been lodged since Police Chief B. H. Covington and Special Police Investigator R. P. Rainey arrested him at a parking lot at Danville, Va.

He had just walked out of federal court clear of a charge of unlawful flight to avoid prosecution.

Waskey identified Phillips as the man who posed as a potential buyer of a dry cleaning concern Waskey was selling. The two men met in Danville and went to Craigsville to inspect the plant.

As they were driving back to South Boston, their car was forced off the road.

Waskey said he was handcuffed and blindfolded and "slapped around a little." The men forced the South Boston collector at gunpoint to go to his home and turn over his coin collection.

Phillips was located after weeks of intensive investigation. Extradition was not necessary to return him to Virginia on the federal charge of flight to avoid prosecution.

Phillips has refused to identify his companions, according to police.

Commonwealth Attorney James S. Easley said Phillips may also be charged with kidnapping.

it. Dealers can not buy them as they can not sell them. Well, they can buy them for export to USA, but it makes problems because I must have a license to send big stocks of coins outside the borders.

I wish to say, that investment in rolls and in "large and small dates" is an investment only for the US market. Investment in scarce coins or gold coins is an investment for the world market. If an economical depression happens in USA as it did in 1930, no one would have money to buy stamps or coins. Then you can try to sell your collections to foreign countries (except for rolls and "dates").

When people ask me for advice, I always say: spread your collecting over a large area. It is a gamble to invest money in 10,000 rolls. I may be wealthy or not. If I invest my money in different types of coins I can be sure that at least some of the coins have better value when I sell them than

Medals In Demand Throughout Kansas

Approximately 60,000 residents of Kansas applied to purchase the official Kansas Centennial medals, with about one out of three being successful, it has been reported.

Those who wished to buy one of the 20,000 U.S. Mint-struck pieces were to sign applications at their home banks. Then a quota was assigned each bank by the Kansas Centennial Commission, and a drawing held to determine which of the signers would be allowed to buy the official medal.

when I bought them.

My point of view is, perhaps, typical European. But I was glad to say what I think is the best for investors.

Smithsonian Display Part Of Appalachian Convention

One of the collections on display at the Smithsonian Institution in Washington, D. C., will be shown at Newton, N. C., when the semi-annual convention of the Appalachian Confederation of Coin Clubs is held there on Saturday, March 25.

This display is one of the most famous known collections of mint errors in both coins and paper money, owned by Dr. C. A. Bolt of Marshallville, N. C., president of the Society of Collectors of Numismatic Errors.

In addition, one of the largest collections of paper money owned

by an individual is also slated to be on view. This is the extensive collection of Paul Whisonant, Lincolnton, N. C., which is also scheduled to be shown at the August convention of the American Numismatic Association in Atlanta.

Other exhibits expected include complete sets of Charlotte and Rutherford County, N. C., and Dahlonega, Ga., gold coins.

The convention, hosted by the Piedmont Numismatic Society of Newton, will be held in the American Legion buildings, U.S. Highway 321 by-pass, beginning at 8:30 a. m. Admission will be free.

The Romance of MONEY

By Ted Hammer

And a Happy St. Patrick's Day to you! Here and there along the numismatic byways Ireland has had a part in coinage problems, design and history.

St. Patrick's half pence and farthings were minted in the 17th century. Central figure

shows King David kneeling and playing a harp. On the reverse is the figure of St. Patrick holding a cross or crozier.

In colonial American coinage the coins are listed as "Newby Coppers," because a Mark Newby brought a quantity of them from Ireland to New Jersey in 1681. The General Assembly sanctioned the coins in 1682 so they received wide circulation in New Jersey.

The colonies had a second coin in common with Ireland—the so-called Rosa Americana coins of 1722, 1723 and 1724. William Wood, an Englishman, obtained a patent from George I to make copper tokens for Ireland and the American colonies.

Wood issued the Americanas in three denominations—twopence, penny and halfpence. This type had a full-blown rose on the tails side and likeness of King George on the heads side. The so-called Hibernia coinage by Wood had the likeness of George and on the other side the figure of a seated woman playing a harp.

While the Rosa Americana coins were received well on this side of the Atlantic, the Hibernian issue was unpopular with the Irish. As a result the Hibernian series also ended up in the American colonies.

Irish gun money is a term given a debased coinage issued by James II in Ireland from June 1689 to June 1690. The series, consisted of a crown, half crown, shilling and sixpence. The latter two coins bear the month as well as the year.

These coins derive their name from the circumstance that they were struck mainly from metal obtained from old cannon.

Irish And Mexicans Fight Yanks

Fighting Irish battalion honored by Mexicans . . .

With St. Patrick's Day approaching, the announcement of Mexico's commemorative medal to the heroic battalion of St. Patrick is appropriate.

This medal, in silver and in gold, honors several companies of

Irish soldiers who fought for Mexico in the war against the United States in 1846 and 1847.

They made their last fight in the battle of the castle of Chapultepec, one of the defenses of Mexico City, and the climax of

the war. The date was September 13, 1847. An American historical description says "The castle was taken by storm, although bravely defended", and on September 14, General Winfield Scott entered Mexico City.

That brave defense was largely due to the Irish of the battalion of St. Patrick, led by captain John O'Reilly. Many of them died that day, and the memorial pamphlet lists 70 names of the heroic dead, among them O'Connors, Murphys, Casidys, Kellys and the like.

Designer of the St. Patrick medal is Lorenzo Rafael, who also designed the General Villa medal.

Both medals, silver and gold, are .37 centimeters in diameter. The gold is .900 fine and the silver .999, according to the description. Weight of the gold medal is 41.66 grams, and the silver, 24 grams. No price on the gold has been announced, but the silver is 30 pesos or \$2.50 in United States money.

Exclusive distributor for the medals is Casa de Cambio Barón, V. Carranza No. 50, Mexico 1, D. F.

Man Stashes Currency

When Andrew Rowe, 69, was taken to an Ann Arbor, Mich., hospital recently, city health department workers found two old bills, one of \$3 denomination and one of \$4, apparently printed in the 1700's, in his house.

A.N.A. Head Club Speaker

Rear Admiral O. H. Dodson, USN (Ret.) president of the American Numismatic Association, is scheduled to be the featured speaker at the March 20 meeting of the Santa Barbara Coin Club, according to a report from the club.

Nominations for 1961 officers are expected to be completed at the same session.

In the Santa Barbara club newsletter it was suggested that groups of members from one club should visit other clubs, in part to get ideas for programs, and in part so that fellow collectors might become better acquainted with each other.

Locket Coin Texas Find

The field of numismatics has its mysteries, such as the present whereabouts of certain coins, or how many of a certain date and Mint were actually coined, but Forrest Miller of Sherman, Texas, has a mystery of a different nature, and he would like some answers.

Miller has an 1879 silver dollar that has been in his family since 1900 when his grandfather, the late Otto B. Steinfeld, of St. Joseph, Mo., acquired it from a friend while riding on a train to Denver.

The dollar looks like any other of its kind. But when pressure is put on a spot near the edge, the coin pops open. Inside is an old

tintype photo of an attractive woman dressed in the style of the late 1800's.

Apparently made of two coins by an expert jeweler, the dollar is a perfect piece of workmanship. The sides fit snugly and its weight and sound when tapped are its only apparent differences. The photo is glass-covered, held in place by a ring.

Steinfeld discovered the opening by accident, and his friend had not known about it but thought it was counterfeit. Miller would like to know the answers to these questions:

Who created the oddity? Who is the lady in the photo? Who owned the coin and how did he happen to lose it?

THANK YOU!

Rear Admiral O. H. Dodson, USN (Ret.) president of the American Numismatic Association, is scheduled to be the featured speaker at the March 20 meeting of the Santa Barbara Coin Club, according to a report from the club.

Nominations for 1961 officers are expected to be completed at the same session.

Locket Coin Texas Find

The field of numismatics has its mysteries, such as the present whereabouts of certain coins, or how many of a certain date and Mint were actually coined, but Forrest Miller of Sherman, Texas, has a mystery of a different nature, and he would like some answers.

Miller has an 1879 silver dollar that has been in his family since 1900 when his grandfather, the late Otto B. Steinfeld, of St. Joseph, Mo., acquired it from a friend while riding on a train to Denver.

The dollar looks like any other of its kind. But when pressure is put on a spot near the edge, the coin pops open. Inside is an old

tintype photo of an attractive woman dressed in the style of the late 1800's.

Apparently made of two coins by an expert jeweler, the dollar is a perfect piece of workmanship. The sides fit snugly and its weight and sound when tapped are its only apparent differences. The photo is glass-covered, held in place by a ring.

Steinfeld discovered the opening by accident, and his friend had not known about it but thought it was counterfeit. Miller would like to know the answers to these questions:

Who created the oddity? Who is the lady in the photo? Who owned the coin and how did he happen to lose it?

THANK YOU!

Club Plans Store Exhibit In Winnipeg

The Manitoba Coin Club of Winnipeg, Manitoba, is planning a large coin exhibit in the Hudson's Bay Company store in Winnipeg from March 13 to March 17, according to a report from the club.

The Hudson's Bay Company is contributing \$150 toward descriptive material for the display, as well as its Beaver room auditorium. There will be 22 glass wall cases and four counter cases for the exhibit.

Members of the Manitoba club are providing material for the exhibit from their own collections, with anything of a numismatic nature being eligible.

The Manitoba club has a membership of more than 200, and, in order to eliminate the formality of making introductions, the members wear buttons with their names on them.

Answers

- 1—From the German Taler, first struck in 1484.
- 2—Earlier dated silver dollars.
- 3—19,570.
- 4—Nobody knows. It is presumed they were never issued but remelted because the metal in them was worth more than face value, with seven reserved for assay.
- 5—The "Cornerstone" dollar because they were supposedly struck primarily to be placed in building cornerstones. That is one reason for the low mintage and why they are scarce now.

PRESENTING A NEW KIND OF COIN BOOK FOR ALL COLLECTORS, INVESTORS AND COLLECTOR-INVESTORS!

UNCOVERED!

The prices of uncirculated U.S. Coins for each separate year since 1935! A fascinating year to year history of coin prices that will open your eyes! Learn what the yearly price change percentage has been on each coin. Many surprises in figures revealed!

WHAT WILL YOUR EXPENSIVE COLLECTION, YOUR COIN INVESTMENTS, BE WORTH IN THE YEARS AHEAD . . . WHAT ARE THEIR "MATURITY" DATES AND VALUES?

For the first time this priceless data is made available in "The Profit March Of Your Coins From 1935 To 1968." Here you will find a scientific and accurate scale of future values based upon what each coin has done in the past. Up until now such predictions were based on the mere pulling of a hypothetical figure out of the air. You'll see how coin prices change over the years, the price change percentages, coinage totals, projected prices from 1961 to 1968, comments on the future . . . on each and every uncirculated coin, roll, or proof set.

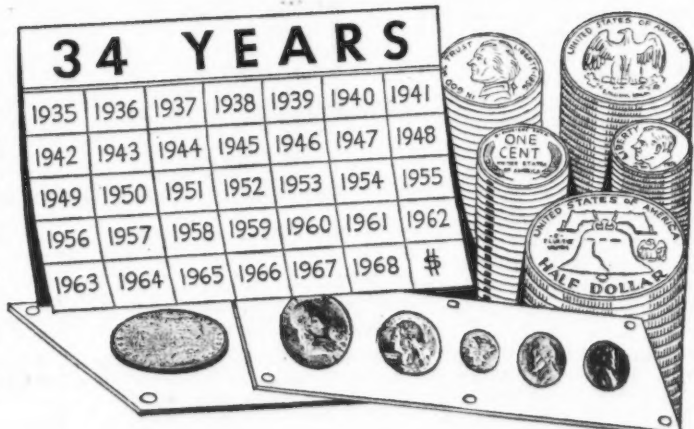

Reading this guide will leave you with a new respect for your investment.

You'll see what the prices were back in 1936, 1945, 1950 . . . or any other year! How they have changed, startlingly, in the thirties, forties and fifties . . . and what they will be in the next four or eight years!

Up until now, the factors involved in coin futurities have not been presented so there has been no yardstick with which to measure the possibilities. Now revealing pages mathematically prove that most investments in coins will, regardless of present confusion, produce future yields that will far exceed expectations!

Not only the coin investor, but the collector should have this guide

in his possession! Collections have a way of growing and growing until they represent a tremendous investment. If you have such a valuable collection or have set aside rolls, you should know how long it will be before your coins are worth a certain amount of money . . . enough, perhaps, for college educations . . . travel . . . emergencies . . . or even partial retirement (it has been done). You'll get the answers when you have this unusual book before you. You will be shown the individual price pattern of each coin, the length of each cycle and the frequency of change. With this set pattern you can observe how long the upsurges and the downsurges lasted in the past and govern future actions accordingly.

"THE PROFIT MARCH OF YOUR COINS FROM 1935 TO 1968"

LEARN WHICH COINS ARE LIKELY TO INCREASE IN PRICE FIRST.
WHICH WILL OFFER THE BEST SECURITY OVER THE YEARS.

Inasmuch as the past is but a mirror of the future, it would behoove any coin collector or investor to seriously review the past price history! Such records have always been available in other investment

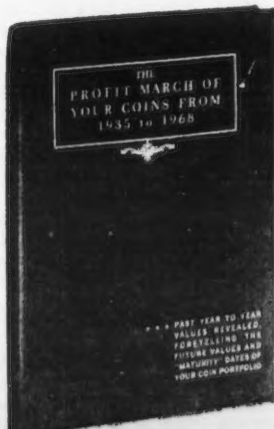

fields! Now for the first time you have the same opportunity! Don't guess or worry any longer because of a lack of investment knowledge!

Broken Bank Notes Require Special Vocabulary Knowledge

Study Aid To Dealer And Collector

By Hank Bieciuk

It has often been said that a catcher's mask, glove, chest protector and shin guards are the tools of ignorance. Be that as it may. That they are tools of the baseball trade no one will deny, and this is the important point. There are many words and terms peculiar to the field of broken bank notes and it would be wise to become familiar with some of them. Many large auction catalogs and advertisements use these terms on the assumption the reader is familiar with them. Unfortunately, often this is not the case. I remember one auction in which a note was described as "uncirculated, slightly foxed."

The proud high bidder received the note, noted that it indeed was uncirculated but slightly stained or discolored and promptly returned it. Yet the note was accurately described! In this instance, the term "foxed" was an unfamiliar one and the bidder did not realize "foxed" meant discolored or stained. By the way, "foxing" is usually a by-product of age.

A working knowledge of some of the more common terminology will save both the dealer and collector a lot of unnecessary time, trouble and expense. Clip out this list and save it. It may be of help to you at some later date.

Altered note—Notes that were illegally changed. Counterfeiters, at times, were able to obtain the original engraving plate of an actual bank. Often, they would change only the name of the city and state from the original plate and then issue notes on this non-existent bank.

The Columbia Bank of Washington, D. C. was a respected bank of the period. Notes of this bank in plate fell into the hands of counterfeiters who changed the plate by removing Washington, were issued in the 1850's. The original D. C. and substituting Columbia, Penn. A non-existent bank in a non-existent town! This was done in the 1860's.

Bank note—Paper currency issued by a bank. This is a general term and is often used to describe notes issued by railroads, insurance companies, etc. Since these companies or concerns functioned to some extent as banks, the term is acceptable.

Bank note register—A periodical

that listed and described current issues of genuine notes. Since counterfeiting was so prevalent, this was a safeguard used by banking houses in redeeming notes.

Bank note-stamp engraving—An engraving, or part of one, that was used on both bank notes and on stamps. Many of these notes are collected by both bank note collectors and by stamp collectors. The Washington and Franklin heads on the 1847 stamps are found on many different notes.

Bilingual notes—Notes on which some of the wording is in two languages. A good example is the Citizens Bank of Louisiana. At that time, a large percentage of the population was French and notes of this bank were printed in both English and French. There

are some Penn. notes that were printed in English and German.

Branch bank notes—Many banks had branches and they used a different vignette for the branch bank or left a blank space on the note to be filled in as to the branch. At times notes of the parent bank were only payable at one of their branches.

Cancelled note—A note that has been redeemed. The form or type of cancellation varied. It could be a cut cancel (cutting an X into the note with a knife or other sharp instrument), a cut out cancel (hole, triangle, etc.), a written cancel, etc. It is my theory that some notes were retired by merely marking them as counterfeit. I have examined many notes marked counterfeit with their genuine counterpart and could find no difference whatever.

Certificate of deposit—There are instances where an individual would deposit a certain amount of money in an institution and would be issued a Certificate of Deposit. This certificate would state that the bearer deposited \$1; (or other amounts) and would receive this amount upon surrender of the certificate. These certificates were of the same appearance as bank notes and most of them circulated as actual money.

City notes or scrip—Notes issued by a city for various reasons. Many of these issues were in the form of a loan and bore rates of interest.

County notes—Notes issued by a county. A large percentage of county notes were issued during the Civil War. Virginia county notes are probably the most numerous.

Counterfeit—An illegal imitation of a genuine note. Counterfeiters would hire "shade tree" engravers who made plates of bank notes in circulation. Notes were then

printed and passed, much as it is today. This practice was so widespread that periodicals called "Counterfeit Reporters" had to be used. These listed all the known spurious notes. Of course, altered notes are also counterfeits, but they differ in that the original plate was used.

Cut note—Notes that were cut in half. This practice is usually found in the \$50 and \$100 denomination notes. Notes of these denominations were often cut in half as a safeguard in mailing and also for the purpose of making change. With this last term I'll "cut out" until next week.

Fishermen 'Catch' Coins

Scottish fishermen, fishing around the island of Skerries, Shetland, recently have been uncovering gold and silver coins.

They are believed to be part of the 23,000 English Pound hoard of coins which went down with the Dutch East Indiaman, De Liefde, which sank in that neighborhood in 1711.

Many attempts have been made to recover the treasure, but only 3,000 Pounds (about \$15,000) worth have been found.

Mangan Has New Space Suit

James T. Mangan, known as the "Daniel Boone of Outer Space," founder of the space nation, Celestia and the gold celestion coin, has designed the first space suit for civilian space travelers.

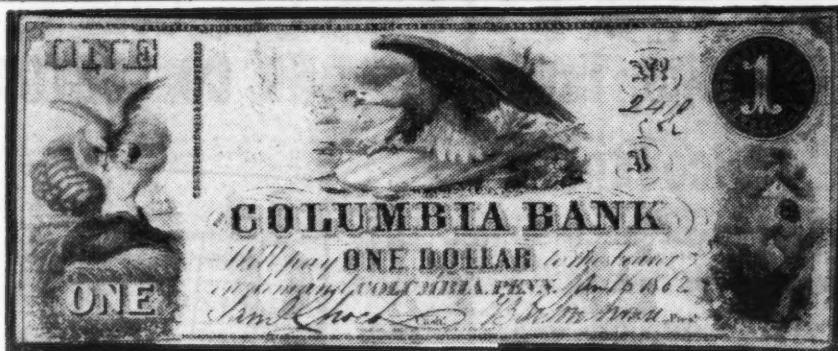

The suit has 40 pockets. It costs \$350. Mangan says he will wear the blue wool suit on the first spacecraft traveling into outer space provided the ship is operating with celestial energy.

A bilingual note printed in both English and French since the population of New Orleans was predominately French.

Genuine note issued at Washington, D. C., in 1852.

Altered note from the original plate. The city and number five of the date have been removed and Columbia, Penn., inserted.

FACTS You Should Know About COIN CLEANERS!

For years coin collectors have searched for an all purpose cleaner that was SAFE! Many dollars were spent for products that made fantastic claims. At COINEW we suspect that many valuable coins have been discolored and stained in ways that brought disappointment and disillusionment. Some coin cleaners are good . . . no question about it; but we believe that many do not perform in accordance with the claims made.

Some products are falsely colored with ingredients that are absolutely unnecessary in the cleaning process. Some are messy to use and require extensive rubbing. Others are ineffective paste. Recognizing the need for a coin cleaner that was completely safe and effective, too, COINEW went to work and searched the nation for the ingredients that would solve the coin cleaning problem . . . once and for all!

We have found these ingredients! We have named it COINEW. It is so remarkable in its action that we are afraid collectors won't believe us when we describe what it can do. Sometimes words lose their real meaning because people are fooled by them so often. (Fantastic, amazing, magical, etc.) We hesitate to use such words even though they are truthful when associated with COINEW.

COINEW IS A REAL SHOCKER! COINEW is a clear liquid. (No artificial coloring to deceive). It is simple and quick in its action. YOU JUST DIP THE COIN . . . THAT'S ALL! Rinse it off and there you are. Filthy uncirculated coins once again reflect the bright frostiness they had when they first left the mint. But that's not all. COINEW does a dandy job on XF and AU coins as well. Believe it or not, it works beautifully on any kind of coin. Try it on gold, silver, nickel or copper. Even zinc coins snap back to their original beauty. What more can we say? You have to see it work on your own coins to believe it.

One dollar buys a bottle of COINEW at your local dealer . . . enough to clean hundreds of coins. If COINEW doesn't do all we claim, just return it. You will obtain an immediate refund. We know we are secure in offering a money back guarantee. COINEW is revolutionary . . . after two years of testing, we know we've got a good thing! You don't risk a thing when you purchase COINEW. You are simply making an intelligent investment that can pay for itself over and over again . . . because your coins will be worth more!

NOTE—If your dealer has not yet stocked COINEW, we will be happy to promptly furnish you a bottle at the regular price of \$1.00 plus 25c to cover postage and handling.

Schulman - Kriesberg Sale Exceeds \$300,000

Price List Released By Two Dealers

More than 250 collectors jammed the specially enlarged Park Avenue suite of the Waldorf Astoria to buy gold and silver of the Atlas collection and the great U.S. gold and silver rarities from the Lichtenfels and other collections at the Schulman-Kreisberg coin auction February 16-18.

When it became apparent that collectors from all over the United States were flying in for this yearly numismatic event and when between 50 and 60 collectors daily viewed the coins at Hans Schulman's office, 545 Fifth Avenue, New York City, on the days preceding the auctions, it was necessary to arrange with the Waldorf to extend the length of the Park Avenue suite all the way along the width of the hotel and even then there was standing room only, according to Hans Schulman and Abner Kreisberg.

Donald D'Amato whose voice failed the first evening, but was ably replaced by Vahan Mozian, handled the other three sessions well assisted by the Schulman-Kreisberg staff to spot the many bidders, many of whom were so far away from the auctioneer that it was difficult to see their bids.

Europe, South America, Africa and Australia sent bids through the mail and close to a thousand bidders fought for a coin in this sale.

A few of the prices obtained are following here. A price list, will be available later on for \$1. The big success of the sale were the four stellas sold for \$39,500 and

Robbery Victim Praises Coin World's Expediency

Herbert Baker, Akron, Ohio, collector, today told Coin World he got the first hint of what happened to \$5,000 worth of coins burglarized from his home the night of January 16 from the pages of Coin World!

"I knew I had hit pay dirt when I received your publication," Baker said.

An Akron friend who gets a Pittsburgh paper, sent Baker a clipping of the arrest of the four members of a Pittsburgh coin burglary gang which may be responsible for over \$100,000 in coin thefts over the country, allegedly

headed by Philip Scasserra.

Baker mailed Pittsburgh police a description of his coins. But Coin World confirmed his suspicions that some of the coins in the Scasserra loot were his.

"I was able to identify enough coins that I should get slightly less than 20 per cent of the original value returned," Baker told Coin World.

Baker was able to identify the following coins in Pittsburgh:

1783 Chalmers shilling, six pence; 20 Connecticut—2 Mutton-head, Hercules, etc., 10 in WR pages, a Kentucky Myddelton proof, Rhode Island Grant, box English coins, 1797 cartwheel, Unc., box half dollars including 1795 (poor date) and 1807 extra fine, Rhode Island Grant and Highley bronze copies.

Baker's home was robbed while he was conducting an auction at the Akron Coin Club.

Baker told Coin World his colonials had been in a safety deposit box for three years, but he took them out in December so he could catalog them.

"I did not have any insurance," Baker said, "but I think that any collector who intends keeping coins at home should have some. Also I think there are ways of putting identification marks on some coins without hurting their resale value. I wouldn't recommend doing this to all coins as then it would be too obvious."

"Keep up the good work. I think you have done more for numismatics and coin collectors than all our monthly publications have been able to do. In other words, when we get it from Coin World it is still news."

Baker paid tribute to the "terrific" job done by the FBI, and the cooperation of the Akron police and the Allegheny county Detective Bureau in Pittsburgh.

"The shame is that we have so many legal loopholes that permit thieves to remain at large," the Akron numismatist commented.

Japanese Texas Member

The San Antonio Coin Club is a candidate for the record of having one of its members live the furthest away from the club.

Yuzo Takada, Hirosaki-shi, Aomori-ken, Japan, has applied for membership and will be accepted, according to Don Swanson, an active member of the San Antonio club.

Takada wrote to a department store in San Antonio, asking to be referred to a coin collectors' club of which he had heard "there was one in your country". He said collecting was not easy in Japan.

The letter was turned over to Swanson, who has a coin department in the store to which Takada wrote.

English Auction Prices

At a recent English auction (Christie's), a U. S. \$2.50 gold piece of 1796 sold for 320 pounds or about \$2,304, and one of 1797 brought 350 pounds or about \$983. The same price was paid for a Gold Medal of the Peace of Breda, 1667, by John Roettier.

Pennsylvania Show May 27

Further details on the Cumberland Valley Coin Show set for Chambersburg, Pa., on May 27, have been announced by John Duke, general chairman for the sponsoring Friendly Coin Club.

Main features of the show will be exhibits and bourse, with no auction scheduled in order not to detract from the other two. There will be free admission to the public, from 9 a.m. to 11 p.m.

Dealers' bourse fee is \$10, to include one eight foot table, a name card, and an electrical outlet. Dealers are requested to provide their own supplementary table lights if they are desired. Some display cases are available for a slight extra charge if reserved in advance.

Bourse space will be assigned strictly in order of application, provided the fee accompanies the application. When space is gone, any further fees sent in will be returned. A guard will be provided throughout the day.

Bourse chairman is Clarence F. Pugh, P. O. Box 158, Chambersburg, Pa.

Treasurer Speaks Before Ohio Club

Vincent C. Judge of Lisbon, Ohio, treasurer of Columbiana County, spoke on "Know your Money" at a recent meeting of the Beaver Coin Club in that county.

The club has some 30 members and welcomes any interested collectors in the North Lima-Columbiana-Lisbon area. It meets the second Thursday of each month at Theron's Market, south of Columbiana, in the "family room". Its next meeting will be Thursday, March 9.

MAIL BID SALE

Sale Closes March 23, 1961

Well, back again! At the time of writing this mail bid sale, I do not know who the highest bidder is on my sale carried in the February 9th issue of Coin World. However, I do want to say this: "THANKS very much to those that have sent in their bids." I think the lowest bid would be 12c for large cent. I'd like to buy 5,000 at this price myself! In describing these coins, maybe I have gone too far in the descriptions but you'll sure know the condition of the coins you want. Those that are dark or dirty should clean up good, if you care to do it. Check either 1961 Canadian catalogues for prices. Three day return privilege. Highest bidders will be notified by air mail. Postage and insurance extra. Please, minimum bids not less than 50% of the value unless the coin is damaged in some way. Good luck to you all. Maine residents add 3% sales tax. Please bid by number. I'll be back in the future. So long for now!

NOW Convention May 19-20 In Milwaukee

Planners of the NOW (Numismatists of Wisconsin) convention here check items from Gale Highsmith's extensive collection of odd and curious money, one of the featured displays to be exhibited at the conclave May 19-21 at Milwaukee's Pfister Hotel. Left to right are Harry Collura, bourse chairman; Gale Highsmith, co-general chairman of the Milwaukee Coin

Club; Robert Branigan, Beloit, co-general chairman and president of NOW; Walter Boeyer, exhibits chairman, and Del Bertschy, publicity chairman. Highsmith holds an ensoba, a piece of wife-buying money used by the Bizon tribe, East Cameroon, Africa, the oldest iron money known from Africa. It takes 10 or 15 of these pieces to buy a wife.

The first annual coin convention of the Numismatists of Wisconsin has been scheduled for Friday, Saturday and Sunday, May 19-21, at the Pfister Hotel in Milwaukee, with the Milwaukee Numismatic Society as host.

A feature of the show will be a 2-session auction conducted by James Kelly, president of World Numismatists, Dayton, Ohio, who is also slated to conduct the Penn-Ohio auction in Pittsburgh a week later, and the American Numismatic Association auction in Atlanta in August.

Kelly expects to combine both the Penn-Ohio and Milwaukee auctions into one catalogue and provide for mail bids as well as the floor bidding at both conventions.

Bourse and exhibits will have a featured place at the convention,

which will occupy the entire seventh floor of the hotel. Bourse fees will be \$35 for the three days. Security arrangements are being made for the protection of dealers, exhibitors and collectors.

During the convention, a meeting of the officers and board of governors of N.O.W. will be held, at which will be discussed invitations from Wisconsin coin clubs interested in being host for the 1962 convention.

Officers of N.O.W. and of the show include:

Robert Branigan, 1158 Central Avenue, Beloit, president of N.O.W. and convention co-chairman with Gale Highsmith, 3925 South Burrell, Milwaukee, also president of the host club.

Herbert Demanouske, 1870B Spruce Street, Beloit, secretary-treasurer of N.O.W. and president of the Beloit Coin Club; Harry Collura, 9276 N. Sleepy Hollow Lane, Milwaukee 17, bourse chairman; Walter Boeyer, 3869 N. 84th Street, Milwaukee 22, exhibits chairman, and Del Bertschy, Milwaukee, publicity.

Maine Date April 15

The next meeting of the Maine Numismatic Association is scheduled for April 15 at the Methodist Church, Shore Road, Ogunquit, Maine, from 10:30 a.m. to 5 p.m., according to a report from Charles L. Seaman, Ogunquit. Further information may be obtained by writing him at Box 168, Ogunquit.

Canadian Errors In Circulation

Attention, collectors of paper money errors!

There are 32 Canadian \$5 bills with printing errors, somewhere in Canada. A few have been located.

The bills carry the signatures of bank Governor J. E. Coyne and Deputy Governor J. R. Beattie in an inverted position under the top border.

They were released in the Montreal area. Several have quietly changed hands recently through Montreal dealers at undisclosed prices. One dealer has valued them at anywhere from \$15 to "hundreds of dollars".

Almost Everyone Prefers America's First Family of Coin Albums

THE LIBRARY OF COINS

By Any Standard, Still The Best!

Complete visibility and complete protection, the two most-wanted features of a coin album, are presented for the first time by THE LIBRARY OF COINS. Bound like books, handsome and compact, each Library of Coins volume displays and protects its coins between two sliding panels of clear, tough plastic. Each coin "porthole" has printed next to it full data on mint mark and quantity minted. Each volume contains a brief background story on the coins, giving both the novice and advanced collector helpful information, including a listing of the rare dates.

Measuring 8 1/4" x 6 1/4", the volumes are low priced, sturdily manufactured, and perma-

nently bound in a variety of identifying colors for the various denominations. Their compact size permits the storing of a large coin collection in very small space. Backbones are clearly gold stamped so that they are as readily identifiable as are books.

The Library of Coins represents the first major innovation in high grade coin albums in more than 30 years, and was several years in development. Designed by numismatists, the Library of Coins is designed to satisfy the needs and desires of numismatists. Write for descriptive circular on the Library of Coins.
